THE HIRING CHALLENGE

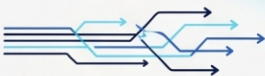

Education hiring falls into three categories — and each is harder than traditional office hiring.

CARD 01

Scattered Channels

Openings are spread across newspapers, WhatsApp groups, agencies and generic job boards, with no single place to post, manage or track recruitment.

CARD 02

The Non-Teaching Gap

Drivers, peons, security, housekeeping, lab assistants, sports staff, counsellors and administrators remain underserved despite continuous demand.

CARD 03

Slow Verification

Credential checks, identity validation and candidate screening consume time and resources because institutions lack trusted profiles.

EduVyapar Solves All three challenges

One platform that unifies posting, sourcing, verification and payments for the complete education ecosystem.

EVERY ROLE, ONE PLATFORM

From the Boardroom to the Gate

Most job boards focus only on teachers. EduVyapar covers the complete institution workforce across eight role families from a single platform.

ONE POST REACHES THE RIGHT CANDIDATES ACROSS ALL EIGHT ROLE FAMILIES — WITHOUT A SEPARATE AGENCY FOR EACH.
